## OUR WINE LIST

Our Head Sommelier, Dario Barbato, travels extensively meeting producers and selecting wines for our restaurants, many of which you will not find anywhere else in the UK. Our eclectic list showcases not only some of the finest wines from around the world, but also our affinity for winemakers who grow their grapes organically. With twenty-five wines available by the glass – we truly have something for everyone but if you do require any assistance, please don't hesitate to ask one of our team.

## ORGANIC & BIODYNAMIC WINES

This section has been created to give more importance to wines not produced from conventional agriculture explaining the meaning & the difference between organic & biodynamic wines.

**ORGANIC WINES:** These are wines made from organically grown grapes where natural methods are used for controlling insects, disease & weeds in the vineyards. The use of sulphur dioxide as a preservative is dramatically lowered versus conventionally made wines.

**BIODYNAMIC WINES:** The ultimate state of farming with nature. This approach views the farm as a single organism rather than different components & interference can affect the natural 'rhythm' of the farm. Planting, pruning & harvesting is in accordance with a biodynamic calendar.
